**Determination of Patent Term Adjustment under 35 U.S.C. 154 (b)**  
(application filed on or after May 29, 2000)

The patent term adjustment to date is 2 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 2 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

DATE MAILED: 01/24/2003

**Notice of Fee Increase on January 1, 2003**

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: re claims 33-37: these claims recite that the material is electrolytically formed and none of the prior art teaches this feature and the product of an electrolytic process is different from the product of a non-electrolytic process (see Applicant's remarks filed 27 August 2002). Re claims 44-48, 50 and 53-68: the prior art does not teach or suggest a material of these claims, specifically no combination with V or Ni where the claimed elements are within the claimed ranges. Re claim 69, the prior art does not teach or suggest a material of this claim, specifically, that a PVD target can be made from the alloy combinations. PVD alloys are relatively unpredictable, such that one of ordinary skill in the art would not expect a specific alloy to work as a PVD target without first trying to deposit the alloy by PVD (i.e.-there is no reasonable expectation of successfully making a PVD target from the claimed alloy, without the disclosure of the present specification). Re claim 73, the prior art does not teach or suggest a Hf-Cr PVD target. For claim 73, the closest prior art is Hunt et al (US 6,056,857) which teaches (see claim 16) that a sputtering target can be one of ten elements or mixtures thereof. Hf and Cr are on the list, however, it would not have been within the expected skill of a routineer in the art to have selected one composition from such a generic disclosure that contains ten elements, 45 possible two element combinations and many more 3 or more element combinations, especially in the unpredictable art of PVD targets. Therefore, independent claims 33, 44, 50, 53, 54, 59, 64, 69 and 73 are allowable. For at least

Art Unit: 1742

these reasons, dependent claims 34-37, 45-48, 55-58, 60-63 and 65-68 are also allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
